

## Education

- ❖ University of Florida Undergraduate
  - Graduation Date: May 2024
  - Major: Computer Science
  - GPA: 3.1

## Programming Skill Set

- ❖ Java, C++, HTML, CSS, JavaScript, ReactJS

## Involvement

- ❖ WiCSE – Women in Computer Science & Engineering      September 2021 – Present
  - WiCSE is the official ACM-W chapter at the University of Florida that works to close the gender gap in technology. WiCSE has been designed to help educate, equip, and inspire women with the computing skills they'll need to pursue their dreams in the technological field of their choice as well as provide a sense of community in the form of a safe space for women who are interested in the field of computer science and engineering.
    - WiCSE Shadowing Program    Fall 2022
      - Worked with a mentor at Traject on a personal prototype website that stores and saves links using HTML, CSS, JavaScript, and React.
- ❖ UF SEC – Software Engineering Club      September 2021 - Present
  - The Software Engineering Club aims to assist Computer Science students in their early pursuits and explorations of software development technologies.

## Work Experience

- ❖ Lab Technician - UF Blueberry Breeding and Genomics Lab      May 2022 - July 2022
  - Assisted with testing and implementation of a private mobile application that was used to scan a barcode, take in data, and output that data into an Excel spreadsheet.

- Assisted with the collection of fruit quality data.
